Special Cameras

underwater

UNDERWATER CAMERA SYSTEMS

Go deeper with your pictures, placing our PTZ remote-controlled camera system underwater or using a completely submersible camera housing with Pan and Tilt on our MiniJib.

O4S provides a wide range of underwater and swimming pool camera systems for broadcast TV.

Underwater PTZ

Dive deeper for your pictures by placing O4S's PTZ (Pan, Tilt, Zoom) remote-controlled camera underwater.

Underwater MiniJib

Fully-submersible camera housing with Pan and Tilt on O4S's MiniJib. It can be operated with vest or tripod.

Operators can easily make air-water-air transitions (above and below water level) and capture stunning movement with full control for live broadcasts.

Key Features

- 1 Fiber Optic SMPTE Cable
- CCU Base Station for 1 or 2 Underwater PTZ
- Remote Control Panel
- Preset Memories
- Up to 20m submersible

Video Signal

- 1080/50i
- 720/50p

Pan/Tilt Action

- Horizontal: $\pm 175^\circ$
 - Maximum Panning speed: $60^\circ/\text{sec}$
 - Minimum Panning speed: $0.25^\circ/\text{sec}$
- Vertical: $+90^\circ, -30^\circ$
 - Maximum Tilting speed: $60^\circ/\text{sec}$
 - Minimum Tilting speed: $0.25^\circ/\text{sec}$
