

Streamline Outside Broadcast Truck

Broadcast Anywhere Timeline^{TV}

Streamline

Streamline is an ultra-compact outside broadcast truck that delivers live programmes from any location with full broadcast features including a built in up-link.

Streamline handles multiple HD signals with its powerful 'Tricaster' 8000 vision mixer providing full camera coverage at any venue.

The integrated Ka-band satellite link, coupled with top-of-the-range H264 encoding, delivers high-quality pictures.

The truck is equipped with a Newtek 3Play 425 six - channel slow motion replay unit allowing recording of four sources with two simultaneous replay outputs.

Streamline is perfect for live sports reporting, feature inserts or corporate events.
